An average active adult requires 2000 Kcal energy per day, however calorie needs may vary. The nutrition analysis is done by internationally recognized, NABL accredited and ISO 17025 certified laboratory and information provided by Burger King India suppliers. It is based on standard product formulations per serving. Variations in serve sizes, preparation process, sources of supply including seasonal changes/geographical/ weather conditions may impact nutritional values of the menu items. In addition, product formulation do change periodically due to various external factors, including those stipulated above. One should expect some variation in the nutritional content and serve size of products purchased at our restaurant. The data provided here is approximate and indicative. Some of this nutritional data and serve size of these products are required to be disclosed under law or regulation; and further/additional information may also be displayed, however, all have been provided with the intent to help customers make informed choices at Burger King. The data here is subject to change at any time without prior notice.

All our Burgers are free from the synthetic colours and artificial flavours. Burger King products are for immediate consumption only.
